

Intense. Bold. Vivid.

EUROQUATICS
A GAVITA COMPANY

A1 Angel LED

The A1 Angel LED aquarium light is perfect for standard, shallow and frag reef tanks, and offers full-spectrum output and color rendering right out of the box. It's the complete package... in a cool titanium-colored case.

The Angel A1's 95 watts of LED power give you premium coverage at depths under 20 inches, and the bold spectrum creates an ideal environment for a healthy reef. Plus, there's plenty of flexibility for creating custom Moods and Programs to turn your reef into a work of art.

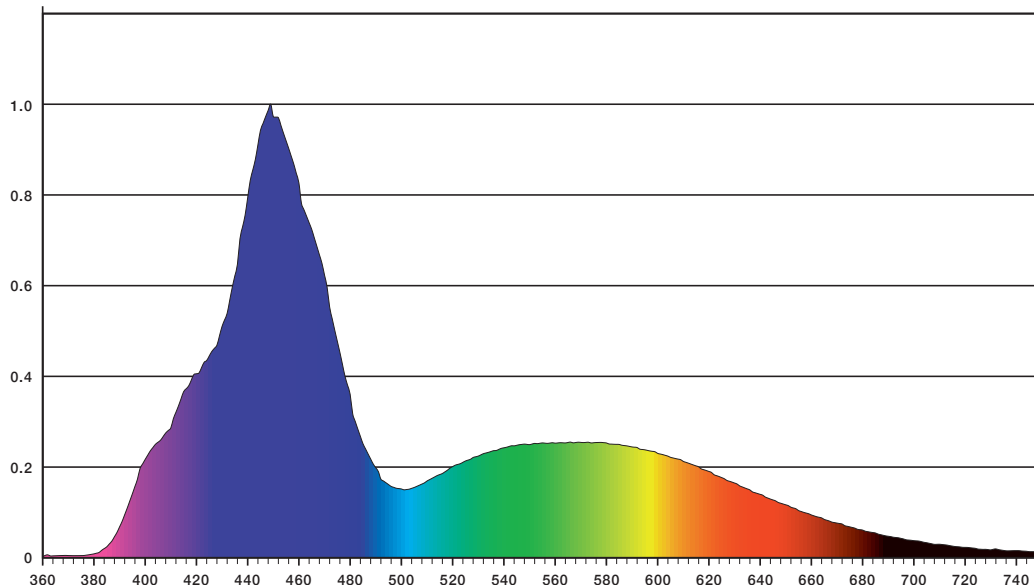

Simple, intuitive controls provide premium results quickly and easily – and you can tweak and fine-tune when you want to, not because you have to. Most important, you get everything you need right in the box – there are no additional gadgets, connection devices or apps to purchase. With Euroquatics, it's all included. Open the box, plug it in and enjoy.

FEATURES
